Made a pretty major refactor on the auction gameplay page, had to redo a lot of the (formerly) on-page js after moving into its own file

content/css/auction.css

content/js/auction-game.js

lib/views/auction-game.html

```
<form action="/repo/new" method="POST">
  <fieldset>
    <legend>New Repo</legend>
    <input type="text" name="repoName">
    <input type="submit">
  </fieldset>
</form>

<script src="/javascripts/jquery.min.js"></script>
<script type="text/javascript" src="/javascripts/parseDiff.js"></script>
<script type="text/javascript" src="/javascripts/mustache.js"></script>
